

## **CAPSULE SUMMARY**

**BA-1097**

**331-333 Hillen Road**

**East Towson, Baltimore County**

**Circa 1890**

**Private**

The twin dwelling at 331-333 Hillen Road was constructed circa 1890 in the East Towson neighborhood of Baltimore County. The history of East Towson dates from the purchase of one-and-a-quarter acres of land by Daniel Harris in September 1853. This is believed to be the first documented African-American landholding in Towson, and is among the oldest such ethnic enclave in Baltimore County. Further, manumitted slaves and/or descendants of former slaves, many of who were owned by Charles Ridgely, populated the neighborhood. Hampered by the low economic status of the residents, development in the 19<sup>th</sup> century was slow, increasing after the turn of the 20<sup>th</sup> century. The setting of the property, building styles, and construction materials were guided by the limited economic status of the residents and their desire to establish a neighborhood of their own without the assistance of white architects, builders, and craftsmen. By 1927, the community was ninety-five percent improved with single-family dwellings, social buildings, a school, and religious structures.

Fronting south on a level grassy lot close to the road, this vacant dwelling is surrounded by mature trees and shrubs, and the rear faces a large power plant. This two-story wood frame dwelling is four bays wide with two separate entrances. Across the full-width of the façade is a shed-roof porch supported with square wood posts on a poured concrete foundation. The western half of the façade contains a single-leaf 6-paneled wood door and a 1/1 double-hung wood sash window on the first story, and a 6/1 double-hung wood sash window on the second story. The eastern half of the façade features a replacement single-leaf 9-light over 2-panel metal door and a 2/2 double-hung wood sash window on the first story, and a 6/6 double-hung wood sash window on the second story. The doors and windows use square-edged wood surrounds and sills. The building is re-clad with asbestos shingles, and the deteriorated side gable roof features overhanging eaves and is sheathed with asphalt shingles. There is one center-interior stretcher-bond brick chimney.

Evaluation for:

☐ National Register

☐ Maryland Register

☒ not evaluated

Prepare a one-paragraph summary statement of significance addressing applicable criteria, followed by a narrative discussion of the history of the resource and its context. (For compliance projects, complete evaluation on a DOE Form – see manual.)

The twin dwelling at 331-333 Hillen Road was constructed circa 1890 in the East Towson neighborhood of Baltimore County. East Towson is associated with events that have made a significant contribution to the broad patterns of our history, specifically the pre-Civil War development of an African-American neighborhood in a predominately white community. The history of this property dates from the purchase of one-and-a-quarter acres of land by Daniel Harris in September 1853. This is believed to be the first documented African-American landholding in Towson, and is among the oldest such ethnic enclave in Baltimore County. Further, manumitted slaves and/or descendents of former slaves, many of who were owned by Charles Ridgely, populated the neighborhood. Hampered by the low economic status of the residents, development in the 19<sup>th</sup> century was slow, increasing after the turn of the 20<sup>th</sup> century. The setting of the property, building styles, and construction materials were guided by the limited economic status of the residents and their desire to establish a neighborhood of their own without the assistance of white architects, builders, and craftsmen. By 1927, the community was ninety-five percent improved with single-family dwellings, social buildings, a school, and religious structures. Many of the current homeowners and tenants living in the neighborhood are descendents of the first African-American residents.

East Towson as a whole is representative of an important phase of architectural development in Baltimore County, illustrating the dilution of popular architectural styles to more efficiently meet the needs of the neighborhood, and the builders' untrained abilities to execute the fashionable ornamentation. Several of the freestanding structures in East Towson are twin dwellings, surreptitiously providing multiple-family housing on narrow rectangular building lots typically occupied by single-family houses. Thus, East Towson provided lower cost housing in a more suburban neighborhood, rather than the urban setting their economic status typically perpetuated.
